ZONO sanitech

The **Sports ZONO** provides a safe, user-friendly, green sanitizer for athletic equipment. The **Sports ZONO** technology combines a contained ozone sanitizing environment with humidity and a warm air drying cycle.

Standard Dimensions

- 50" W x 30" D x 60" H
- Custom Solutions Available

The Sports ZONO

- Sanitizes equipment, fabrics, padding and other non-washable items
- Reduces offensive odors
- Extends life of equipment, reducing reorder and reconditioning costs
- Uses no costly chemicals
- Kills 99.9% of bacteria* and 99.99% of viruses †
- Adjustable warm air heating and drying cycle standard
- Requires only standard 15 amp outlet

Why Ozone?

- One of nature's most powerful oxidizers, ozone has been used as a powerful organic sanitizer since the early 1900s
- Ozone is widely used for water treatment, including municipal water supplies, swimming pools, spas, cooling towers and sewage treatment plants
- Ozone is recognized as an efficient sanitizing agent by USDA, FDA, EPA, CDC and the World Health Organization
- Ozone gas penetrates into fabric, padding and equipment where spray sanitizers cannot reach
- Ozone does NOT damage nor impact the integrity of the fabric, padding nor equipment (unlike other sanitizers)
- Ozone is a chemical free, green solution (no consumables)

The **Sports ZONO** goes beyond -

- Meets the AOAC and EPA definitions of sanitizing*
- Meets the EPA definition of a disinfectant for viruses+ (University of Georgia Center for Food Safety)^

^ Kills 99.9% of bacteria* and 99.99% of viruses†

* Staphylococcus Aurues, Methicillin-Resistant Staphylococcus Aures, Escherichia Coli, Streptococcus Pneumoniae, Streptococcus Pyogenes, Shigella Dystenriae, Salmonella Enteritidis, and Pseudomonas Aeruginosa.

† Noroviruses on non-porous surfaces

ZONO sanitech

The Sports ZONO

Warranty and Service

- Standard one-year warranty on workmanship and materials.
- Three and five-year service plans available with all inclusive warranties.

Cycles and Time

- Items can be used immediately after treatment
- No wait time between cycles
- 30 minute sanitizing cycle
- Adjustable warm air drying cycle

Construction, Dimensions and Capacity

- Durable stainless steel construction
- Industrial shelves with easy height adjustment
- Standard Dimensions: 50" W x 30" D x 60" H
- Interior Components
  - 4 stainless steel adjustable & removable racks
  - 16 stainless steel sliding double hooks on permanent bar
- Capacity for helmets – 40
- Capacity for shoulder pads – 15

Safety Features

- Electromagnetic locking mechanism - ensures doors remain closed during ozone cycle
- Ozone monitors inside and outside of cabinet to ensure control and safety
- Lighted display panel for cycle adjustment and status
- Push button start and emergency stop button

Testing, Certification and Registration

- The Sports ZONO meets the Official Analytical Chemists (AOAC) definition of sanitizing of non- food surfaces
- Independent testing conducted by Aerobiology Laboratory and the University of Georgia Center for Food Safety
- Meets EPA definition of sanitizing[1] and viral sanitizing[2]

[1] Kills 99.9% of bacteria on porus and non porus surfaces
[2] Kills 99.99% of norovirus on non porus surfaces

Comparison chart

	Sports ZONO	Competitors
Humidity and Ozone Management	yes	no
Sanitizes Bacteria* and Disinfects Virus†	yes	no
Interior & Exterior Ozone Sensors	yes	no
Adjustable Warm Air Drying	yes	no
